Major Project -1

CODE:

```dart
import 'package:flutter/material.dart';
import 'dart:math';

void main() {
  runApp(
    MaterialApp(
      home: Scaffold(
        backgroundColor: Colors.white24,
        appBar: AppBar(
          backgroundColor: Colors.black12,
          title: Text('One-Two-Three'),
        ),
        body: OTTPage(),
      ),
    ),
  );
}

class OTTPage extends StatefulWidget {
  @override
  State<OTTPage> createState() => _OTTPageState();
}

class _OTTPageState extends State<OTTPage> {
  var Num = 0;
  @override
  Widget build(BuildContext context) {
    return Row(
      mainAxisAlignment: MainAxisAlignment.center,
      children: [
        Center(
          child: Container(
            height: 200,
            width: 200,
            child: Padding(
              padding: const EdgeInsets.all(8.0),
```

```dart
        child: TextButton(
          onPressed: () {
            print('$Num is Pressed');
            setState(() {
              Num = (Num + 1) % 10;
            });
          },
          onLongPress: () {
            print('$Num is Long Pressed');
            setState(() {
              Num = 0;
            });
          },
          child: (Image.asset('images/img_$Num.png')),
        ),
      ),
    ),
   ),
  ],
 );
 }
}
```

OUTPUT:

```dart
import 'package:flutter/material.dart';
import 'dart:math';

void main() {
  runApp(
    MaterialApp(
      home: Scaffold(
        backgroundColor: Colors.white24,
        appBar: AppBar(
          backgroundColor: Colors.black12,
          title: Text('One-Two-Three'),
        ), // AppBar
        body: OTTPage(),
      ), // Scaffold
    ), // MaterialApp
  );
}

class OTTPage extends StatefulWidget {
  @override
  State<OTTPage> createState() => _OTTPageState();
```

```dart
import 'package:flutter/material.dart';
